**Deadline: 17:00p.m. (GMT), Wednesday 2<sup>nd</sup> February 2022**

## **This document outlines:**

- What you need to know about the Royal Irish Academy R.J. Hunter Research Bursary
- How to make your application
- How we assess and decide on your application
- How we process your application

Applicants are required to read the guidelines to applicants carefully before submitting an application.

## **Background**

The R.J. Hunter Grants Scheme was established in 2014 using funding generously made available by his daughter, Ms Laura Hunter Houghton, through the Community Foundation for Northern Ireland.

R.J. (Bob) Hunter was a highly respected (and much loved) historian of the Ulster Plantation, who spent the bulk of his academic career teaching at the University of Ulster. His varied research interests included the role of the English settler in the Ulster Plantation, the history of Ulster trade and migration from and to Britain and North America, the development of towns, and the cultural and intellectual history of Ulster from 1580 to 1660. In light of the breadth of these research ambitions, it is no surprise to find that, upon his untimely death in 2007, his private papers (now lodged in the Public Record Office of Northern Ireland) attest to a great body of unfinished research.

- The purpose of this grant is to provide support for the direct costs of research on aspects of Ulster History during the period 1500-1800, up to a maximum of €2,500
- Typically awards made are in the region of €2,000-€2,500
- The application form is available [here](#)
- All queries can be sent to [grants@ria.ie](mailto:grants@ria.ie)

### **How applications are processed and assessed**

Applications that are deemed eligible will progress to the assessment stage by the Hunter Committee. If your application is-ineligible, you will receive a letter informing you that your application will not be assessed.

Eligible applications will be assessed by the Hunter Committee of the Royal Irish Academy (RIA) based on the criteria and guidelines within this document. Recommendations will be made to the RIA for ratification based on the budget and the applications received. You will then receive a letter of decision. If your application has been successful, we will include information about what you should do next. If you have not been successful you may contact the RIA for feedback on your application.

### **Role of the Chair of the working group**

The primary role of the Chair is to facilitate the working group in making its assessment, and to make sure that fair decisions are made in as efficient a manner as possible. In conjunction with RIA staff, the Chair must also ensure that assessments are made in line with the published criteria and that assessment procedures are followed. In general, the Chair does not have a voting role in the assessment. The exceptions to this are:

- when consensus cannot be reached and a casting vote is necessary
- when a conflict of interest is declared by another Assessor member

### **Role of the Hunter Committee**

Based on the applications presented to them members of the Hunter Committee are asked to use their expertise and knowledge to assess, score and make decisions in line with the published criteria for the award and in the context of available funds. The RIA staff member (Senior Programme Manager) who is present at the Assessment panel does not have a vote in the scoring of applications. However, the staff member is there to offer support and advice to the working group when needed. Those who are involved in assessing are required to review and assess material in advance of the Assessment Committee meeting and on the day to score each application against the criteria and to articulate the rationale for their support or otherwise of an application. They are also asked to assist the Chair in ensuring that all decisions are made within the allocated time period for the meeting. Assessors cannot abstain from making decisions unless in the case that an interest is declared. All Members of the working group and the Chair must complete both conflict of interest and confidentiality declaration forms.

### **Assessment criteria**

Assessment of applications will be carried out in line with published criteria for the grant scheme outlined above. Applications are assessed in a competitive context and with consideration of the available resources. Assessors are requested to familiarise themselves with the specific grant criteria in advance of making their review or assessment. There are no quotas for different types of application. Comparative judgements about value for money may be taken into account at the final stage of assessment.

Costs should be clearly itemised and justified in terms of research.

If the RIA is being asked to support only a proportion of the total costs, please list all the expenses connected with the research, as assessors will gauge the costs with reference to the scale of the whole project. Please indicate which costs are being sought from the Academy.

*Points to note:*

In assessing value for money, the working group will consider the intended outcome relative to the amount requested. However, it is appreciated that some modes of research are more expensive than others and proposals will not be discriminated against on these grounds.
